

Towards a new transportation culture: technology innovations for safe, efficient and sustainable mobility
Joint BELGIUM - UNECE Inland Transport Committee workshop on Intelligent Transport Systems

This annual flagship workshop follows the United Nations Economic Commission for Europe (UNECE) Road Map for promoting Intelligent Transport Systems (ITS), which includes global actions ranging from harmonizing policies to improving road safety and ensuring data security.

The workshop will bring together ITS experts to discuss how innovations based on information and communications technology can help create a driving and transportation culture that contributes to safe, efficient and sustainable mobility.

The workshop is one of the 20 global actions mentioned in the UNECE Road Map for promoting ITS.

You are kindly invited to the event on **17-18 November** in **Brussels** at the Diamant Conference and Business Centre (please send us the registration form before 10 November).
