

11th ITS European Congress 2016 Glasgow

Combined TN-ITS General Assembly meeting and Congress Session PR04

At the 11th ITS European Congress 2016 in Glasgow, UK, TN-ITS will organise its annual General Assembly (GA) meeting as one combined event with the Congress Session PR04 that will report on the ongoing TN-ITS implementation work taking place in the EU-funded project EU EIP (under the CEF Programme). Note that the GA meeting will include, at 08:35, the showcase of the implementation in Finland, which is close to its finalisation. The GA meeting is open to non-members.

Date/time/room

Wednesday 8 June 2016 / 08:00-10:30 / Project Room (Theatre 2, Exhibition area)

Description of Session PR04: Progress in TN-ITS spatial data exchange

Use of ITS digital maps gradually extended beyond mere navigation to ADAS and C-ITS applications, with automated driving on the horizon. The mission of TN-ITS is to support immediate updating of ITS maps for changes in road attributes. By catching changes at the origin (road authorities), each update concerns just a single data point from a trusted source, not needing extensive processing, interpretation and validation. In the Transportation Pilot (in cooperation with the JRC), implementations were done in Norway/Sweden. In the CEF-funded EU-EIP project now pilot implementations are underway in five more countries, as a step-up to further European roll-out.

Programme of the combined session

- 08:00 Opening General Assembly meeting, Hermann Meyer, CEO ERTICO, Belgium
Report TN-ITS for the past year, Kees Wevers, TN-ITS
Minutes previous GA meeting, working groups, Terms of Reference, financial report and budget, election Board members
- 08:35 Showcase on TN-ITS implementation in Finland, Antero Karppinen, FTA, Finland
- 08:55 End of General Assembly meeting - short break
- 09:00 Start of Session PR04
Keynote address, Gilles Carabin, EC, DG MOVE, ITS Unit, Belgium
Introduction of session, outline TN-ITS activity in the EU EIP, Kees Wevers, TN-ITS
Transportation Pilot, Francesco Pignatelli, EC, DG JRC, Italy
TN-ITS implementation in Flanders, Bert Boterbergh, MOW, Belgium
Map provider perspective, Anna Forsell, HERE, Sweden
TN-ITS implementation in the United Kingdom, Suku Phull, DFT, UK
TN-ITS implementation in Ireland, Paul Lewis, NUIM, Ireland
Map provider perspective, Tom Jensen, TomTom, Denmark
TN-ITS implementation in France, Alain Chaumet, IGN, France
- 10:30 End of session

Access to the Project Room

The Project Room is located in the Exhibition area (Theatre 2). Access to the Exhibition requires either a registration as Congress participant, or as Exhibition visitor. The latter is free of charge until 30 May. Session speakers need registration as Congress participant.
